

Brand guidelines

VERSION 1.0 • 2026

Who we are

Vita Terra is Azerbaijan's exclusive distributor of Cerrado Sol — Spanish-formulated plant protection products. We exist to bring world-class agricultural science to regional farmers who deserve more than commodity pesticides.

Mission

Deliver premium European crop protection to regional farmers, backed by expert agronomic support.

Vision

To be the most trusted plant protection partner across the South Caucasus.

Positioning

Premium importer with scientific expertise — not a commodity reseller. Spain's heritage, Azerbaijan's fields.

Slogan

Bitki Mühafizə Tərəfdaşınız

Your Plant Protection Partner

BRAND VALUES

Trust

Authentic products, certified channels.

Science

EU-regulated formulations, field-tested.

Stewardship

Right product, right dose, right time.

Heritage

Spanish craftsmanship since Cerrado Sol.

Three lockups, one identity

Every use of the Vita Terra logo falls into one of three lockups. Pick the one that matches the space — never invent a new arrangement.

Clear space	Minimum size	Background
Minimum exclusion zone equals the height of the gold seed dot at the base. Nothing else may enter.	Mark: 24 px / 8 mm. Horizontal lockup: 100 px / 30 mm wide.	Dark green leaf on cream, white, gold. Gold leaf on dark green, photography.

What never to do

These mistakes erode the brand. If you see any of them in the wild, replace immediately with an approved lockup.

× **DON'T**

Rotate the leaf or wordmark at angles.

× **DON'T**

Apply gradients, shadows, glows, or 3D effects.

× **DON'T**

Change the leaf or wordmark colors away from brand palette.

× **DON'T**

Stretch, condense, or distort proportions.

× **DON'T**

Outline the leaf or replace the serif wordmark.

× **DON'T**

Place on busy photos without enough contrast — use a tinted overlay first.

Green for life, gold for heritage

Vita Green Dark is the dominant brand color — it should cover roughly 60% of any layout. Heritage Gold is the accent — used sparingly for the leaf vein, dividers, and CTAs.

Primary · greens

Vita Green Dark #1A3A2A RGB 26·58·42 CMYK 80·40·80·60	Vita Green Mid #2D5C3F RGB 45·92·63 CMYK 75·30·75·40	Vita Green Accent #3E8C58 RGB 62·140·88 CMYK 70·15·75·15	Vita Green Light #6AB87A RGB 106·184·122 CMYK 55·5·65·0
---	--	--	---

Accent · heritage golds

Heritage Gold #C9A84C RGB 201·168·76 CMYK 20·30·80·5	Gold Light #E8C96A RGB 232·201·106 CMYK 10·20·65·0	Cream #F7F4EE RGB 247·244·238 section bg	Paper #FFFFFF RGB 255·255·255 page bg
--	--	--	---

60 / 30 / 10 rule

60% Vita Green Dark or Cream as the dominant surface · 30% supporting greens or neutrals · 10% Heritage Gold for accents and calls to action. Reverse on dark contexts: 60% dark green, 30% gold + light text, 10% cream.

Two families, clear roles

Playfair Display carries the brand's craft and Mediterranean heritage in headlines and the wordmark. DM Sans handles every other word — utilitarian, neutral, highly legible.

Display · Playfair Display Bold

Vita Terra

Premium plant protection

Section title

Use for: brand wordmark, hero headlines, section titles, marketing display copy.

Body · DM Sans Regular + Medium

Section heading

Body copy paragraph. Long-form explanation that needs to feel calm, factual, and easy to skim. DM Sans handles dense product specs and farmer-facing instructions cleanly.

LETTERS PACED LABEL

Type scale			
Hero 48–68px Playfair 700	H1 32–48px Playfair 700	H2 22–28px Playfair 700	H3 18–22px DM Sans 500
Body 15–16px DM Sans 400	Small 13px DM Sans 400	Caption 11px DM Sans 500 uppercase	Tag · 11px letter-spacing 2px

Note: this PDF uses Liberation Serif and Lato as substitutes — the actual brand fonts are **Playfair Display** and **DM Sans**, both free on Google Fonts.

Confident, scientific, neighbourly

We speak the way an experienced agronomist talks to a farmer over coffee — knowledgeable but never condescending, precise about science, plain about practice.

✓ **SAY THIS**

"Tested in real Azerbaijani fields, certified to EU standards."

✗ **NOT THIS**

"Revolutionary game-changing pesticide solutions!"

✓ **SAY THIS**

"For aphid control on stone fruit, apply 1.5 L/ha at first sign of infestation."

✗ **NOT THIS**

"Just spray it and watch the magic happen."

✓ **SAY THIS**

"Sourced directly from Cerrado Sol, Spain — every batch traceable to its source."

✗ **NOT THIS**

"World-famous European luxury formulas."

Premium without snobbery. Scientific without jargon. Local without losing the European backbone.

Real fields, real hands

Photography should look like it was taken on an actual Azerbaijani farm at golden hour — warm, sun-lit, slightly saturated greens, real people. Avoid the stock-photo aesthetic at all costs.

✓ CAPTURE

Farmer hands inspecting leaves; rows of mature crops at sunrise; close-up of dewy fruit; packaging photographed beside the actual product in use.

× AVOID

Generic stock handshakes; lab-coat scientists pointing at beakers; aerial drone shots with no human element; over-saturated "perfect" crop photos.

✓ COLOR TREATMENT

Warm white balance (~4500K), slight gold highlights pulled up, shadows kept rich and green. Skin tones natural, not orange.

× COLOR TREATMENT

Heavy Instagram filters, cool blue casts, blown-out skies, vignettes, HDR effects.

Subject hierarchy

1. Hands and crops (most important — shows expertise + product in real use) · 2. Sun-lit landscapes (sets scene) · 3. Packaging shots (product hero) · 4. Portraits of farmers and our team (human connection). Avoid product-only shots without context — they read as catalog photography.

In the wild

Reference layouts for the most common things you'll need to print or post. Spacing, fonts, and palette are already correct — lift them as templates.

Quick application reference

Business card: Dark green background, gold leaf top-left, name in serif, role in gold letterspaced caps, contact details in 8pt body sans on right edge or below.

Email signature: Gold leaf · serif name · DM Sans role & contact lines.

Social profile: Mark-only as avatar (gold on dark green for LinkedIn, dark green on cream for Instagram). Cover photo: warm field shot with the leaf-mark watermark bottom-right at 30% opacity.

Product label: Always leave clear space around the Vita Terra mark — minimum 8mm in all directions. Use the horizontal lockup with "Exclusive distributor of Cerrado Sol" beneath in 6pt sans.

Living document

This brand book is version 1.0 — the foundation, not the final word. Designs evolve. Voice tightens. New applications appear. Keep this document accurate; treat any departure from these guidelines as a one-time exception, not a precedent.

Version history

v1.0 — 2026-05-18 — Initial brand guidelines. Defines logo system, color palette, typography, voice, imagery, and core applications.

Brand assets
